Professional Summary
Senior Frontend Developer with 5+ years of experience in React.js, Next.js, and TypeScript. I build high-performance SaaS and e-commerce platforms with a focus on clean code, speed, and user experience.

Professional Experience

Senior Frontend Developer – Sllm – Riyadh, Saudi Arabia (Remote)   June 2024 – December 2025
- **SaaS Architecture**: Architected and developed a complex, multi-tenant **SaaS** dashboard using **Next.js** and **TypeScript** to enable Saudi merchants to launch and manage fully customizable e-commerce storefronts.
- **Feature Engineering**: Built high-quality, reusable web components with **Tailwind CSS**, ensuring a scalable and responsive UI , accessible (WCAG-compliant) for diverse merchant needs across the GCC.
- **Product Ownership**: Developed a fully featured storefront generator, focusing on seamless user onboarding and merchant-facing tools for the Saudi market.

Senior Frontend Developer – E2E County – Cairo, Egypt (On-site)   October 2023 – May 2024
- **Feature Engineering**: Developed complex, mobile-first **Search Engine** features using Next.js, improving SEO and SSR performance for large-scale client projects.
- **Optimization**: Streamlined data fetching and caching by optimizing **RESTful APIs integrations** through **React Query**, enhancing overall application speed.

Senior Frontend Developer – U100 – Cairo, Egypt (On-site)   September 2022 – September 2023
- **Component Library**: Developed a comprehensive, reusable UI component library using Tailwind CSS, which improved development speed across the engineering team by 25%.
- **Code Quality**: Led code reviews and mentored junior developers to maintain high standards of code quality, performance, and best practices in **TypeScript**.

Frontend Developer – OTG (One Tec Group) – Cairo, Egypt (On-site)   February 2022 – August 2022
- **Performance Optimization**: Reduced website load time by 40% by implementing code-splitting and lazy loading.
- **Business Impact**:Contributed to an 11% increase in sales by improving the checkout flow and UI.

Frontend Developer – One Solution – Al Asimah, Kuwait (Remote)   June 2020 – January 2022
- **State Management**: Managed complex application states using **Redux Toolkit**, ensuring seamless data flow and a bug-free user experience.
- **Dashboard Design**: Designed and implemented interactive admin dashboards with **React.js**, providing real-time data visualization and analytics.

Full Stack Developer (Internship) – Easykash – Cairo, Egypt (On-site)   March 2019 – August 2019
- **Merchant Dashboard**: Developed a complex, data-driven dashboard for merchants using **React.js** and **Node.js**, focusing on real-time transaction tracking and analytics.
- **UI/UX Optimization**: Designed interactive data visualizations and **charts**, ensuring a seamless and intuitive user experience for business owners
